

CLÉMENT POUPELIN

Statistician

Personal website : https://clement-poupelin.github.io/

CONTACTS

06 42 68 24 77

clementjc.poupelin@gmail.com

Clément Poupelin

Driver's licence (Permis B)

SKILLS

- French (native)
- English (B2 +) TOEIC 880
- German (B1)

- R/Rstudio
- Python
- LaTex
- Git (GitLab, GitHub)
- SAS
- SQL
- Linux/Windows
- MS 365

WORKING GROUP

- StatOmique

INTERESTS

- Cinema
- Music (guitar, bass, piano)
- Travel (Japan, England, Germany, Belgium)
- Hiking
- Sport (badminton, volley-ball, climbing)

EXPERIENCES

UAR 2014 - US 41 PLBS (Bilille) - University of Lille

***January 2025 – January 2027* : Statistical Engineer**

- Participation in numerous research projects on neurodegenerative diseases
- Involvement in the unit's internal development projects
- Development and delivery of training in the R programming language
- Supervision of students on master's-level projects

UR 1404 MaIAGE - INRAE Ile-de-France

***October 2024 – December 2024* : Statistical Engineer**

- Application of data science skills to microbial ecology
- Participation in a pilot project promoting open science and open data
- Work on methods for inferring microbial networks
- Creation of a Quarto blog documenting the work carried out

***April 2024 – September 2024* : Intern**

- Acquiring data science skills applied to microbial ecology
- Exploring statistical methods used in meta-analyses

***January 2024* : Challenge Data (third place for 189 participants)**

***September 2023 - September 2024* : Study Buddy**

***June 2021 - August 2023* : Claims advisor MAIF**

***July 2023 et July 2024* : Volunteering for FEMA (Festival La Rochelle Cinéma)**

PUBLICATIONS

Journal Papers

V. Huin, E. Cailliau, C. Poupelin, et al., Blood-based biomarkers of ferroptosis in Parkinson's disease, Neurobiology of Disease (2026), Open Access, DOI: 10.1016/j.nbd.2026.107414.

Quarto tutorial (personal website)

- Statistique en grande dimension
- Série temporelles
- Régression linéaire et logistique
- Structural equation modeling and application in psychology
- Survival Analysis: From Censoring to the Cox Model

EDUCATION

UFR Sciences et techniques - University of Nantes

***2022 - 2024* : Master Mathematics and Applications - Statistical Engineering**

- Analysis and modeling using big data
- Time series modeling and forecasting
- Implementation of Bayesian and machine learning techniques

***2018 - 2022* : Bachelor in Mathematics**
